Upper body specialization — Session A (Monday)

Horizontal emphasis · hypermobility-safe · ~44 min · 17 working sets

Muscle group

Shoulder / rotator cuff · Medial delt · Posterior delt · Chest · Back · Biceps · Triceps

30–60 min before: collagen peptides (10–15g) + vitamin C
Maximizes collagen synthesis in tendons loaded during session

A — Superset 1: Chest + Back (~9 min · 3 rounds · 90s rest after each pair)

1 Smith machine flat bench press (soft elbow lockout) — 3 × 6–8
Pec major · anterior delt · triceps — Smith
Chest · horizontal press · primary compound

↕ then immediately

2 Narrow grip seated cable row (no forward lean on eccentric) — 3 × 8–10
Mid-trap · rhomboids · lats · posterior delt — Cable · 3s ecc
Back · horizontal pull · thickness focus

B — Superset 2: Chest + Back (~7 min · 3 rounds · 90s rest after each pair)

3 Dumbbell chest fly (flat bench) — 3 × 12–15
(light weight · slight bend in elbows throughout) — DB · flat bench
Pec major stretch

↕ then immediately

4 Chest-supported DB row (incline bench · chest on pad) — 2 × 10–12
(removes lower back strain · isolates upper back) — DB · 3s ecc
Rhomboids · mid-trap · rear delt · lats

C — Superset 3: Biceps + Triceps (~6 min · 2 rounds · 90s rest after each pair)

5 Cable curl — behind-body stance (low cable · step forward) — 2 × 10–12
(elbow slightly behind torso · fixed line of pull · soft elbow lockout) — Cable
Biceps brachii (long head) · brachialis

↕ then immediately

6 Cable triceps pushdown (short straight bar · soft elbow lockout) — 2 × 10–12
Lateral head · medial head (long head underweighted) — Cable
Triceps · shortened bias · soft elbow lockout

D — Finisher: Medial + Posterior delt (~7 min · straight sets · 60s rest)

7 Dumbbell lateral raise — 3 × 15
Medial delt (primary) · supraspinatus (synergist) — DB
Cap at 80° · below shoulder height · both arms simultaneously

8 Reverse cable fly (single-arm · low pulley · cross-body start) — 2 × 12–15
(slight forward hinge · pull at ~90° shoulder flexion · soft elbow) — Cable
Posterior delt · rhomboids · mid-trap (synergist)

Within 60 min after: protein 30–40g + vitamin C
Supports muscle + tendon remodeling · aim 1.6–2g protein/kg/day total

Every rep, every set — hypermobility rules

- Never lock out elbows or wrists — always keep a soft bend at end range
- 3 sec eccentric on all pulling movements — control the return
- Skip session if joints feel unusually loose that day — reschedule, don't push
- Stop set early if any joint feels unstable — prioritize joint feel over rep count
- Lengthened-position work targets ~70–80% of available range — never end range

Session timeline

Superset B (9 min) → Superset C (7 min) → Superset D (6 min) → Finisher E (7 min)
Total working session: ~44 min · 17 working sets · then proceed to post-workout mobility protocol

Working set count — Session A

Chest: 6 sets (bench 3 + fly 3)
Back: 5 sets (cable row 3 + DB row 2)
Medial delt: 3 sets
Biceps: 2 sets (cable curl)
Triceps: 2 sets (pushdown)
Posterior delt: 2 sets (reverse fly)

Alternative exercises — if equipment occupied or unavailable

# Primary exercise	Alternative 1	Alternative 2
3 Smith flat bench press	DB flat bench press	Push-ups (feet elevated)
4 Narrow grip cable row	Chest-supported DB row	Single-arm DB row
7 Cable curl (behind-body)	Spider curl (face-down incline)	DB hammer curl (elbow behind torso)
8 Cable triceps pushdown	Band pushdown (anchored high)	DB skull crusher to forehead
10 Reverse cable fly	Bent-over DB rear delt fly	Band reverse fly (anchored mid)

v6 — warmup A block removed (redundant with upper mobility protocol P1–P7) · alt-table row 2 removed
