Upper body specialization — Session B (Wednesday)

Vertical emphasis · hypermobility-safe · ~45 min · 17 working sets

Muscle group

Shoulder / rotator cuff · Medial delt · Posterior delt · Chest · Back · Biceps · Triceps

30–60 min before: collagen peptides (10–15g) + vitamin C
Maximizes collagen synthesis in tendons loaded during session

A — Superset 1: Chest + Back (~9 min · 3 rounds · 90s rest after each pair)

1 **Smith machine incline press (30° bench · soft elbow lockout)** — 3 × 6–8
Upper pec (clavicular) · anterior delt · triceps
Chest · vertical-bias press · upper pec emphasis
Smith

↕ then immediately

2 **Lat pulldown — stretch at top**
(let shoulder elevate at top · pull to upper chest · soft elbow) — 3 × 8–10
Lats (upper/stretched portion) · teres major · rhomboids · biceps (synergist)
Back · vertical pull · lengthened-biased · width focus
Cable · 3s ecc

B — Superset 2: Back + Shoulder (~7 min · 3 rounds · 90s rest after each pair)

3 **Band lat pulldown (long band anchored high on Smith upright)**
(kneel or sit · pull to chest · soft elbow · 3s eccentric) — 2 × 12–15
Lats · teres major · rhomboids · biceps (synergist)
Back · 2nd vertical pull · band ascending curve = light at top stretch (hEDS-safe)
Long band · 3s ecc

↕ then immediately

4 **Dumbbell lateral raise** — 3 × 12–15
Medial delt (primary) · supraspinatus (synergist)
Cap at 80° · below shoulder height · both arms simultaneously
DB

C — Superset 3: Biceps + Triceps (~6 min · 2 rounds · 90s rest after each pair)

5 **Spider curl (face-down on incline bench ~45° · arms hang)**
(15–20° elbow bend at bottom · soft elbow · chest supported) — 2 × 10–12
Biceps brachii · brachialis · lengthened at elbow
Biceps · lengthened bias · fully supported · shoulder-safe
Incline bench + DB

↕ then immediately

6 **Overhead cable triceps extension (30° angle bar · facing away)** — 2 × 10–12
Long head (primary) · lateral head · medial head
Triceps · lengthened bias · overhead = badminton smash carryover
Cable · 30° bar

D — Finisher: Medial + Posterior delt + Cuff (~7 min · straight sets · 60s rest)

7 **Cable lateral raise — cross-body (low pulley · single arm)**
(arm starts crossed in front · raise to side · cap at 80° · soft elbow) — 2 × 12–15
Medial delt — lengthened bias at start position
Medial delt · stretch-loaded · fixed line of pull (hEDS-safer than DB at length)
Cable · low pulley

8 **Reverse cable fly (single-arm · low pulley · cross-body start)**
(slight forward hinge · pull at ~90° shoulder flexion · soft elbow) — 2 × 12–15
Posterior delt · rhomboids · mid-trap (synergist)
Cable

9 **Cable external rotation**
(non-negotiable for hypermobility · very light load) — 2 × 15
Infraspinatus · teres minor
Cable

Within 60 min after: protein 30–40g + vitamin C
Supports muscle + tendon remodeling · aim 1.6–2g protein/kg/day total

Every rep, every set — hypermobility rules

- Never lock out elbows or wrists — always keep a soft bend at end range
- 3 sec eccentric on all pulling movements — control the return
- Skip session if joints feel unusually loose that day — reschedule, don't push
- Stop set early if any joint feels unstable — prioritize joint feel over rep count
- Lengthened-position work targets ~70–80% of available range — never end range

Session timeline

Superset B (9 min) → Superset C (7 min) → Superset D (6 min) → Finisher E (7 min)
Total working session: ~45 min · 17 working sets · then proceed to post-workout mobility protocol

Working set count — Session B

Chest: 3 sets (incline press)
Back: 5 sets (pulldown 3 + band pulldown 2)
Medial delt: 5 sets (DB 3 + cable cross 2)
Posterior delt: 2 sets (reverse fly)
Triceps: 2 sets (overhead)
Biceps: 2 sets (spider)
Cuff: 2 sets

Alternative exercises — if equipment occupied or unavailable

# Primary exercise	Alternative 1	Alternative 2
3 Smith incline press	Incline DB press	Incline push-ups (feet low)
4 Lat pulldown (stretch top)	Assisted pull-up (stretch top)	Straight-arm band pulldown (anchored high)
8 Overhead cable extension	Single-arm overhead DB ext.	DB skull crusher to forehead
9 Cable lateral raise (cross)	Side-lying DB lateral raise	Leaning DB lateral raise
10 Reverse cable fly	Bent-over DB rear delt fly	Band reverse fly (anchored mid)

v6 — warmup A block removed (redundant with upper mobility protocol P1–P7)
