# Upper body specialization — Session C (Friday)

Mixed + arm priority · hypermobility-safe · ~43 min · 17 working sets

Muscle group

Shoulder / rotator cuff · Medial delt · Posterior delt · Chest · Back · Biceps · Triceps

30–60 min before: collagen peptides (10–15g) + vitamin C
Maximizes collagen synthesis in tendons loaded during session

## A — Superset 1: Chest + Back (~8 min · 3 rounds · 90s rest after each pair)

1 Dumbbell flat bench press (soft elbow lockout) — 3 × 8–10
Pec major · anterior delt · triceps · more stabilizer demand than Smith — DB
Chest · horizontal press · unilateral loading variation

↕ then immediately

2 Wide grip seated cable row (elbows flare · pull to upper chest) — 2 × 10–12
Upper back · rear delt · rhomboids · mid-trap — Cable · 3s ecc
Back · horizontal pull · upper back emphasis

## B — Superset 2: Chest + Back (~7 min · 3 rounds · 90s rest after each pair)

3 Band crossover (long bands anchored high · step forward) — 3 × 12–15
(bands on Smith uprights · soft elbow · hands meet mid-chest) — Long bands
Pec major (sternal + clavicular) — full fiber recruitment
Chest · mid-range to contracted bias · bands = lighter at stretch (hEDS safer)

↕ then immediately

4 Neutral grip lat pulldown (parallel handles · elbows tuck) — 2 × 10–12
Lats · teres major · biceps · brachialis — Cable · 3s ecc
Back · vertical pull · biceps synergist bonus

## C — Superset 3: Biceps + Triceps (~5 min · 2 rounds · 90s rest after each pair)

5 Hammer curl (neutral grip · standing or seated) — 2 × 10–12
(15–20° elbow bend at bottom · soft elbow lockout) — DB
Brachialis (primary) · brachioradialis · biceps
Biceps · arm thickness · wrist-neutral = forearm-friendly

↕ then immediately

6 Cable triceps pushdown (short straight bar · soft elbow lockout) — 2 × 10–12
Lateral head · medial head (long head underweighted) — Cable · straight bar
Triceps · shortened bias · straight-bar grip · final pushdown volume of week

## D — Finisher: Posterior + Medial delt + Cuff (~8 min · straight sets · 60s rest)

7 Reverse cable fly (single-arm · low pulley · cross-body start) — 2 × 12–15
(slight forward hinge · pull at ~90° shoulder flexion · soft elbow) — Cable
Posterior delt · rhomboids · mid-trap (synergist)

8 Cable lateral raise — cross-body (low pulley · single arm) — 2 × 12–15
(arm starts crossed in front · raise to side · cap at 80° · soft elbow) — Cable · low pulley
Medial delt — lengthened bias at start position
Medial delt · second weekly lengthened session · fixed line of pull

9 Dumbbell lateral raise — 3 × 15
Medial delt (primary) · supraspinatus (synergist) — DB
Cap at 80° · below shoulder height · 3rd session = progressive fatigue

10 Cable external rotation — 2 × 15
Infraspinatus · teres minor — Cable
Shoulder / cuff · very light load · stability maintenance

Within 60 min after: protein 30–40g + vitamin C
Supports muscle + tendon remodeling · aim 1.6–2g protein/kg/day total

### Every rep, every set — hypermobility rules

- Never lock out elbows or wrists — always keep a soft bend at end range
- 3 sec eccentric on all pulling movements — control the return
- Skip session if joints feel unusually loose that day — reschedule, don't push
- Stop set early if any joint feels unstable — prioritize joint feel over rep count
- Lengthened-position work targets ~70–80% of available range — never end range

### Session timeline

Superset B (8 min) → Superset C (7 min) → Superset D (5 min) → Finisher E (8 min)
Total working session: ~43 min · 17 working sets · then proceed to post-workout mobility protocol

### Working set count — Session C

Chest: 6 sets (DB bench 3 + crossover 3)
Back: 4 sets (wide row 2 + neutral pull 2)
Medial delt: 5 sets (cable 2 + DB 3)
Biceps: 2 sets (hammer)
Triceps: 2 sets (pushdown)
Posterior delt: 2 sets (reverse fly)
Cuff: 2 sets

### Alternative exercises — if equipment occupied or unavailable

| # Primary exercise | Alternative 1 | Alternative 2 |
|---|---|---|
| 4 Wide grip cable row | Bent-over DB row (wide elbows) | Band wide row (anchored low) |
| 6 Neutral grip pulldown | Band lat pulldown (anchored high) | Assisted pull-up (neutral grip, stretch top) |
| 8 Cable triceps pushdown | Band pushdown (anchored high) | DB skull crusher to forehead |
| 9 Reverse cable fly | Bent-over DB rear delt fly | Band reverse fly (anchored mid) |
| 10 Cable lateral raise (cross) | Side-lying DB lateral raise | Leaning DB lateral raise |

v6 — warmup A block removed (redundant with upper mobility protocol P1–P7)
